

## MITCHELL URGES A \$500,000 FUND FOR REFORMATORY

Forwards to Gov. Sulzer Report on Investigation of the Bedford Institution.

President Mitchell of the Board of Almsmen forwarded to Gov. Sulzer to-day a report of an investigation showing the necessity for affording additional facilities at the New York State Reformatory for Women. An appropriation of \$500,000 is needed.

Recently the Board of Estimate, on the suggestion of President Mitchell, voted to request the Governor's assistance in obtaining the appropriation. President Mitchell explained to the Board that the institution was overcrowded and that Police Magistrates could no longer send women delinquents to the institution for that reason. "The future of the Legislature to give us relief," Chief Magistrate Otto Kemper said in a letter to Senator Fawcett, "must result in demolishing the administration of criminal justice. No more imprudent city rests on the State than providing properly for the care of young girls in need of correctional treatment."

Dr. Catherine Bennett Davis, Superintendent of the Bedford Reformatory, told President Mitchell that whatever expense has attended the work of the reformatory may be traced to the cottage type of institution. It is the only means, she added, to deal with adult criminal delinquent women.

**SAYS THAT CLASSIFICATION IS NECESSARY.**

"Classification on the basis of age, character and conduct," she says, "is fundamental for the success of any reformatory institution."

President Mitchell's report adds: "The largest single occupational group among the women who come to the reformatory is domestic service. The greatest outlet for trained workers is in domestic service. According to the superintendent, there is always a long waiting list of ladies who want general housework, cooks, waitresses, chambermaids and laundresses. The cottage system with individual housekeeping affords an opportunity to make a large proportion of the women in the institution."

"In cottages with women occupying separate rooms and with the home life which can be developed in a small group habits of initiative and responsibility can be fostered. They are absolutely essential if the woman is to make good when she leaves the institution. "The personal relations between the officers and inmates are more intimate and more efficient in developing character the smaller the group. It is quite impossible to get the close relationship so desirable in the establishment of character in the cottage system."

**WOMEN AT BEDFORD GO MUCH MANUAL WORK.**

According to Dr. Davis the theory on which the work of the institution is planned is "physical labor for not too long hours and not too strenuous a character in the open air."

Dr. Davis says that the woman inmates have done great manual work in the matter of making cement sidewalks, even digging and cementing cellars; building milk houses and cement pig pens and reclaiming the bottoms of brooks for land purposes. They have also showed great aptitude in this outdoor work—building walls

and flights of staircases of concrete as well as doing farm work. The inmates have found it all attractive. While doing this outdoor work the women wear modest and becoming bloomer suits and middie blouses. "When these methods were first advocated," says Dr. Davis, "many people were shocked; many more believed we were undertaking impossibilities, but now almost every institution for women is adopting similar methods."

## CASCARETS—CLEANSE LIVER AND BOWELS.

Dine a box—No headache, bad taste, sour stomach or coated tongue by morning.

It is more necessary that you keep your Bowels, Liver and Stomach clean, pure and fresh than it is to keep the sewers and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry out of the system the accumulated waste matter and poisons in the intestines and bowels.

No odds how badly and upset you feel, a Cascaret to-night will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

**95 Young Women's \$25 to \$30 Coats at \$15**

**150 Young Girls' \$12 to \$13.50 Coats at \$6.75**

We were fortunate in procuring this Apparel to sell at these much less-than-regular prices, because throughout the year the GIMBEL Salon for the Younger Generation is looked upon as being the Specialty Shop of New York for Girls and Young Women—and naturally its outlet is the largest.

It scarcely seems fair to give precedence to any one of these collections, for they are equally commendable!

The \$18.50 Suits are of wool poplin, eponge, serge and checked worsteds, in the most modish colors—including a large number in navy. Many are in dressy styles, others are for utility wear. Every coat is lined with a beautiful silk. Sizes 14, 16 and 18 years.

Every one of the \$15 Coats is different, for they are a well-known tailor's samples. Matelasse, eponge and serge in dark and light colors. Lined throughout with peau de cygne. Sizes 14, 16 and 18 years.

The \$6.75 Coats are just for the girls of 5 to 12 years. All are of serge. In White, Dutch and Navy Blues, Tan, Rose and Brown. Many have Lingerie Collars—and the majority are lined with silk. Just 50 of These Young Women's Crepe Meter Dresses at \$19

### A Corset That Gives the Straight Back

#### "La Camille"

It is quite obvious that a Corset with a perfectly straight back must be worn in the front—as is "La Camille."

But this Corset has a vital feature and one that makes it distinctive—the "Ventilo" back, which eliminates all pressure on the spinal column.

In New York, this Corset is exclusively at GIMBELS—various models at \$5 to \$12.

### The New Reboux Veil

Chic and Convenient, \$2 and \$3

Whether of shadow lace or a Shetland-finished veiling, it is run with rather a wide ribbon at the top—this, when tied in the back, forms a band on the brim of the hat. At the neck line it is gathered on a casing of ribbon which gives the effect of a ruff—this eliminates the trouble of adjusting and pinning the veil to fit snugly.

Another collection of 1 1/2-yard lengths of Veiling—a manufacturer's "ends," at 50c each; reg. 80c to 65c yard. Main Floor

**White  
Crepe de Chine  
"Prince

Blouses  
At \$5**

A large number, but the unusualness of the price suggests that you should not procrastinate.

This is the artistic Blouse with the flat collar and V-neck that is outlined with wide pleated frills—these extend to the waistline.

Although the price of Crepe de Chine has increased, the quality in these Blouses is superior to any that we have had at anything like tomorrow's price.

The Blouses are better made, too. In white voile, \$2—illustrated.

**New Modes  
in  
Dainty  
Lingerie
